**Neri & Hu Design Research Office**

**project** Bei, Beijing.

**standout** A painted mural is literally the restaurant's public face, but the real action takes place in three oak-paneled private dining rooms with chairs by Konstantin Grcic.

**Graft**

**project** Breeze Café, Las Vegas.

**standout** At CityCenter's Aria Resort & Casino, undulating forms overhead define dining and lounging areas unified by a palette of stucco and wood.

**Beige Design**

**project** Kenting Tea House, Hong Kong.

**standout** Transcending a mall location, reclaimed ship's timbers clad the ceiling, and water gets a nod from glass-bubble pendant globes and blue banquettes. ➤
